

Leading Change

Experience running a major organisational change initiative in an AI Computer Simulation

Large scale transformational change is a fact of life in organisations. Many organisations are going through mergers, acquisitions and rapid growth. How do you make sure you don't sink the ship whilst you are trying to change course?

It takes knowledge and skill. The Leading Change workshop equips you with knowledge and practice in a safe environment. Learn to positively shape the future of your business in this risk-free simulated environment.

Beneficial for anyone managing or leading change initiatives

- Leadership teams and those driving organisational change who need to ensure key stakeholder buy-in.
- Those who manage, or sponsor, organisational change projects.
- Change or project team members.

Live Facilitator guides teams of 3 people in virtual, or classroom setting

- Develop the skills to take control, drive positive outcomes and shape the future of your organisation.
- Practice the analysis and strategies needed to ensure the key stakeholders are engaged, to avoid conflict and delay.
- Learn to navigate complex and ambiguous situations and build confidence in your decision making skills.
